Lateral thinking is solving problems through an indirect and creative approach, using reasoning that is not immediately obvious and involving ideas that may not be obtainable by using only traditional step-by-step logic. The term was coined in 1967 by Edward de Bono.

Lateral thinking and Situation puzzles - mesosyn.com

A lateral thinking puzzle is one in which you are given a seemingly unusual set of circumstances and you have to try and figure out what happened or what's going on. Think of a lateral thinking puzzle as a riddle that requires you to become a detective to fill in the missing parts of a very unusual, short story.

20 Realistic Lateral Thinking Puzzles and Brain Teasers to ...

Lateral thinking puzzles are strange situations in which you are given a little information and then have to find the explanation. They are solved through a dialogue between the quizmaster who sets the puzzle and the solver or solvers who try to figure out the answer.

The Top Ten Lateral Thinking Puzzles - Destination Innovation

What is lateral thinking? It essentially means being able to think creatively or "outside the box" in order to solve a problem. Usually, logical thinking is used to solve problems in a direct, straightforward way (also known as vertical thinking). Lateral thinking however, looks at things from a sideways perspective (also known as horizontal thinking), in order to find answers that aren't immediately apparent.
