The Archaeology Of Native Lived

The Archaeology of Native-Lived Colonialism convincingly utilizes historical archaeology to link the Native experience of the eighteenth and nineteenth centuries to the deeper history of sixteenth- and seventeenth-century interactions and with pre-European times. It shows how these Native communities succeeded in retaining cohesiveness through centuries of foreign influence and material innovations by maintaining ancient, adaptive social processes that both incorporated European ideas and ...

As you enter the Archaeology Wing, you will be welcomed by an Olmec Stone Figure (500-600 BCE). The display below of the Olmec Pottery Mask and Hands is a wonderful example of the fine craftsmanship of the Mesoamerican people. This wing gives us clues to how Native Americans lived before the arrival of Europeans in the 16th century.

Archaeology of Indigenous-Colonial Interactions in the ...

During the Archaic Period (8000-1000 B.C.) native people lived as hunter-gatherers, moving in bands of several families around a territory. They camped where wild foods were abundant in different seasons—by a river during spring fish runs, near a forest for fall nut gathering, or in the hills for winter hunting.
